

**City Of Taylor Mill
PUBLIC HEARING
June 12, 2014
6:00pm**

The public hearing was called to order at 6:00 pm by Mayor Bell purpose is to discuss the Holland Drive Street Improvement and Utility Improvements in reference to KRS 91A.240 Engineering Comprehensive Report.

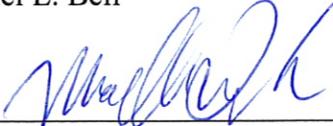

Mark Brueggeman presented his Engineers Comprehensive Report. A description of the project for Holland Drive is to construct 350 LF of new Public Street. The new public street will begin at the north side of the intersection of Taylor Mill Road / Old Taylor Mill Road. The work proposed is as follows: 350 LF of new public road – 36’ wide asphalt pavement with concrete curb and gutter, 350 LF of new 8” water main and storm sewer system. Project cost is projected to be \$263,000.00. Fair basis of assessment for these improvements is the assessed value basis. The assessment for the improvements to the Holland Drive will be 100% directed to the property owner.

Now is the time for comments from the public. Since there is no one here to make comments the Mayor announced we have done our due diligence. Ms. Bailey had no comments to make.

Public Hearing concluded at 6:05 pm.

Mayor Daniel L. Bell
